Gentlemen:

A&R Auto Salvage was recently inspected by Maylynne Wilbur from the MEAC. During the inspection Ms. Wilbur noted that there were two outfalls at the site. She suggested that we reduce our outfalls to one as the discharge from each is the same. To that end we are submitting a NOI with one outfall on the form rather than two. It is our intention to sample and test one outfall for the 2013 Annual Monitoring Report

If it pleases the State, we would like to modify our TMSP from two outfalls to one (SW-001).

Sincerely,  
ECT
